

Report

Regional energy auditor network 14th April 2009 Vienna, Austria

Part of Deliverable 5

Final Version 12.06.2009

**Austrian Energy Agency
ENERGON – Energie- und Umweltmanagement GmbH**

ENGINE Regional energy auditor network

The second meeting to create a regional energy auditor network took place in Vienna on 14th April. The event took place at the hotel Modul in Vienna and was supported by the Energieinstitut der Wirtschaft. Goal was to use existing structures and enlarge the auditor network with new experts

During the event new subsidise schemes were presented, software tools for compiling energy reports, presentation given for awareness raising and communication and financial evaluation of proposed actions. The focus was to integrate also energy auditors from energy suppliers

The second meeting was a good opportunity to learn from each other, get an overview about existing initiatives and subsidy schemes.
